Location: Durban, South Africa

Home Language: Zulu

Other Language: English

CAREER OBJECTIVES

IT graduate currently completing an ICT Honours degree, with strong foundations in Python, SQL and data analytics. I work at the intersection of data, AI and software development, with hands-on experience across full-stack development, technical support and applied data analysis. I enjoy turning messy, real-world information into clear insight, and building the systems that make that insight usable. I am actively growing into data engineering, machine learning and cloud infrastructure, and I'm seeking an entry-level role where I can contribute to end-to-end, data-driven solutions with real impact.

SKILLS

Soft Skills

- Problem solving & analytical thinking
- Effective communication & collaboration
- Adaptability & project management
- Team-oriented, ethical awareness

Programming & Frameworks

- Python, C#, Java, JavaScript, SQL
- Flask, .NET, MVC

Data, AI & Analytics

- Data Engineering & Data Analytics
- Python for data analysis: Pandas, NumPy, Scikit-learn
- SQL querying, Excel, machine learning foundations

Cloud & Practices

- AWS, Azure, Cloud Computing
- CI/CD, Agile Development
- GitHub / Version Control

TERTIARY EDUCATION

Bachelor of Information & Communications Technology Honours

Durban University of Technology · Feb 2026 – Present

Focus: Advanced Data Analytics, Advanced Cyber Security, Cloud Computing, Advanced Software Development & Principles of Research.

Advanced Diploma: Information & Communications Technology — 71%

Durban University of Technology · Feb 2025 – Nov 2025

Major in Applied Maths for Computing. Focus: Data Structures, Machine Intelligence, Business Intelligence.

Diploma: Information & Communications Technology — 74%

Durban University of Technology · Feb 2021 – Nov 2024

Major in Applications Development and Information Systems.

WORK EXPERIENCE

IT Intern

LBC · Sept 2025 – Feb 2026

- Assisted in software development projects under the guidance of senior managers.
- Troubleshoot software and hardware issues, including printers and Microsoft Office, to deliver efficient technical support.

IT Support (Student Assistant)

Durban University of Technology · Feb 2024 – Dec 2024

- Provided technical support to over 100 students weekly, troubleshooting Wi-Fi, printers, Outlook, Teams and Moodle TLZ.
- Managed library resource loans and set up IT equipment for academic sessions.

Academic & Personal Projects — Software Development & Applied AI

Durban University of Technology · 2021 – Present

- Designed and developed multiple full-stack and AI-assisted applications, integrating frontend interfaces, backend systems and databases.
- Applied data analysis techniques including data cleaning, aggregation and SQL querying to generate insights from real-world datasets.
- Built and implemented RESTful APIs to support scalable communication between client and server-side applications.
- Deployed applications using cloud platforms and modern hosting solutions, making projects publicly accessible.
- Collaborated on academic and hackathon projects, demonstrating problem-solving, adaptability and teamwork.

Awards & Activities

- Won second place in the MLab AI Hackathon (2023).
- Led a project group as part of university coursework (2022–2023).

PROJECTS

Study Smart – Exam Preparation AI Assistant

AWS PartyRock, Prompt Design, Generative AI — AI assistant that helps students study smarter, built entirely on AWS PartyRock.

Link: [View Project](#)

Student Mental Health Data Analysis

SQL, Aggregations, DataCamp — Analysed student mental health survey data using SQL, aggregations and filtering to surface actionable insights.

Link: [GitHub](#)

Book Store

Flask, Python, MySQL — Full-stack bookstore web application.

Link: [GitHub](#)

Room Booking App

C#, MVC, .NET — MVC web application for booking rooms with role-based identity.

Link: [GitHub](#)

Car Rental System

C#, SQL, MVC — Rental management system for tracking vehicles and bookings.

Link: [GitHub](#)

Banking System

.NET, SQL, C# — Core banking simulation system.

ACHIEVEMENTS & CERTIFICATIONS

- Amazon Web Services (AWS) Artificial Intelligence Practitioner Learning Plan — Udacity & AWS ([View Credential](#))

- **Python Essentials** — *Cisco* ([View Credential](#))
- **Introduction to Cloud Computing** — *Coursera & IBM* ([View Credential](#))
- **Foundational C#** — *Microsoft* ([View Credential](#))
- **Data Engineering on AWS** — *AWS* ([View Credential](#))
- **Machine Learning Basics** — *AWS* ([View Credential](#))
- **MLOps for Generative AI** — *DataCamp* ([View Credential](#))
- **SQL (Intermediate)** — *DataCamp* ([View Credential](#))
- **SQL (Introduction)** — *DataCamp* ([View Credential](#))
- **AI Fundamentals** — *DataCamp* ([View Credential](#))
- **Agile Development** — *Coursera & IBM* ([View Credential](#))
- **DevOps Introduction** — *Coursera & IBM* ([View Credential](#))
- **Java Programming** — *Great Learning* ([View Credential](#))
- **Java OOPs** — *Great Learning* ([View Credential](#))
